### Product Description

Carrera FIRST Racer - racing fun for the little ones With the Carrera FIRST Racer, even your youngest children can get off to a flying start: the sleek racer in red and white design is precisely tailored to the needs and abilities of toddlers aged 3 and over. So even our little ones can have their first racing experiences. From now on, it's all go in the nursery, because our Carrera First Racers can race across the floor for up to 20 minutes before the batteries need to be changed. The little racer guarantees pure driving fun with its sound and light. Once the racer is empty and recharged, the action can continue immediately! The approx. 26cm long racer on a scale of 1:18 is particularly easy to control, just right for our little ones. Fun is guaranteed with the Carrera First Racer RC! Interactive features for even more action Equipped with a rear wheel axle and air-filled rubber tyres, the racer always delivers top performance on the track. Whether in the nursery or anywhere else in the house, your children will love driving their own tracks at home with the red racer. Thanks to Ready to Run, your children can get started right out of the box. The simple controls make it easy for the little ones to playfully explore the children's room in all directions. Thanks to light and sound elements, your little racers get an extra dose of action on top. These features, its compact construction, its design and of course its performance on the racetrack make the Carrera First Racer perfect for children and therefore just right for giving our little ones their first racing experiences!
