Product Description

The licensed Willys Jeep with trailer has been released in a collection prepared for the 80th anniversary of D-Day and the Battle of Normandy and is marked with a special logo from the organisers of the official anniversary celebrations! The Allied landing in Normandy on 6 June 1944 was one of the most important events of the Second World War and had a major impact on its course! The world's most popular off-road vehicle and trailer have been designed in 1:35 scale and consist of 200 elements. The built car is equipped with a heavy machine gun and accessories that can be stored in the trailer. The wheels with rubber tyres turn and you can move the car around for fun. The set includes two figures representing soldiers of the American 101st Airborne Division "Screaming Eagles". The vehicle and the figures are printed to a high standard, based on historical markings. We have not even omitted details such as patches with the characteristic eagle on the soldiers' arms! The set perfectly complements the very extensive Historical Collection WWII series from COBI! The Jeep Willys MB is a legendary off-road vehicle that played a key role in the Second World War.
