500907517 - 1:14 Tyre insert 20mm 907012907612

from **8,48 EUR**

Item no.: 397331
shipping weight: 0.10 kg
Manufacturer: Carson

Product Description

This is a tyre insert (medium strength) made of cellular rubber, which keeps the truck tyre in shape and provides additional stability. Depending on the load, the better flexing behaviour on road and off-road courses is noticeable thanks to increased traction. Can be used for all TAMIYA tractors, semi-trailers and trailers with wide tyres. Width of the tyre insert: 20 mm Scope of delivery: 2 tyre inserts Suitable for the following tyres: TAMIYA modular tyres - wide version: 300056528, 309808176; CARSON tyres - wide version: 500907012, 500907612.
