Product Description

The new version of the popular dice game Qwixx offers players unimagined freedom. In addition to the usual four colour rows, there is also a 9-part swap table. If the result of the white dice is not what you are looking for, you can use a suitable field in the swap table and place the cross next to another number. But the same applies here: if you skip one of the fields on the way from left to right, it can no longer be used. A small but tricky change of pace for all fans of our classic dice game. NOTE: The basic game Qwixx is required to play. Number of players: for 2-5 players Age: 8 years and up Duration: 15+ minutes
