from **35,31 EUR**

Item no.: 390738  
shipping weight: 0.60 kg  
Manufacturer: COBI

### Product Description

The F-16 Fighting Falcon is a multi-role aircraft manufactured by the American company General Dynamics. It has been produced by defence megacorporation Lockheed Martin since 1993. It is used by the air forces of dozens of countries around the world. The AM version of the F-16 was manufactured in Europe on one of General Dynamics' production lines. With 425 COBI building blocks of the highest quality, you can build the world's most popular licensed fighter and attack aircraft, the F-16® AM FIGHTING FALCON® in Dutch colours (DUTCH AIR FORCE). The set has been carefully designed in 1:48 scale. The building blocks are covered with high-quality prints. The aircraft is equipped with AIM-9 SIDEWINDER and AIM-120 AMRAM missiles. The armament is detachable and can be freely configured or placed on other aircraft from the Armed Forces collection! The set includes a figure of a Dutch pilot, equipped with a helmet and an oxygen mask with hose. It includes decals with patches of the Dutch Air Force and F-16 pilots. The entire set is complemented by a display stand made of clamping bricks with a sign bearing the name of the set, the national flag and the Lockheed Martin logo. Thanks to the intuitive instructions, assembly is easy and poses no problems even for less advanced builders. The set will fulfil the expectations of aviation, military and terminal block enthusiasts. The F-16 AM will look great for an adult collector as well as in a teenager's room. Make history with COBI!
