**536079 - Topic**

from **14,98 EUR**

Item no.: 395811  
shipping weight: 0.40 kg  
Manufacturer: Sit Down!

## Product Description

Topic by Sit Down! Item number: 536079 EAN: 0650414536079 Author: Luffi Illustrator: Antony Moulins What do a lemon and a stethoscope have in common? But if you are currently playing "Topic\_", the connection could be quite clear! In "Topic\_" there are always two cards in the centre of the table. In our case, one card shows a lemon and the number 2. The other card shows four different categories. The lemon marks a category in colour and refers to a specific topic on the other card. In this case, another card shows a stethoscope next to the lemon. A stethoscope could stand for "medical term e", for example. The lemon card also shows the number 2. Can you think of a term made up of 2 syllables relating to the topic "stethoscope"? How about "blood pressure!" or "plasters!". Be quick and call out a suitable word. Because if you react too slowly, you have to draw an extra card from the pile. Whoever has the fewest cards at the end of the game wins! Topic\_ requires speed and creativity. Depending on the cards on display, the players have to name a word with the required number of syllables as quickly as possible! A number sequence can also be required, so that each subsequent player must increase the number of syllables by 1. One thing is for sure: there's no time for boredom here! -Creative and communicative game -Variable playing time depending on the number of cards Number of players 2 - 6 people Suitable for ages 8 and up Playing time 20 - 20 minutes Packaging 35 x 172 x 127 mm
