Product Description

Adventcalendar RC Crawler - building and driving fun for little technology heroes
The RC Crawler Advent calendar from Revell Control turns the pre-Christmas period into an exciting technology adventure! In 24 steps, an impressive RC all-terrain vehicle is created that will delight young technology fans aged 8 and over. This Advent calendar offers a unique combination of building fun, technical challenge and real playtime fun. Thanks to its realistic design and robust construction, the RC Crawler is perfect for exciting off-road driving, whether indoors or outdoors. The highlight: The RC Crawler masters even challenging terrain effortlessly - thanks to its large, grippy tyres and powerful remote control. Children and technology enthusiasts learn how the individual parts are put together and at the same time experience the fascinating feeling of building a functional vehicle with their own hands. Whether as a joint family project or for young modelling fans, this Advent calendar is great fun and also promotes technical understanding and fine motor skills. Scope of delivery-24 kits for the step-by-step assembly of the RC Crawler-Remote control with a radio frequency in the GHz range-Detailed assembly instructions for easy assembly-Decorative elements for customisation-Batteries for vehicle and remote controlSpecial features-Realistic design and robust construction:The RC Crawler impresses with authentic details and a solid construction that guarantees long-lasting fun.-All-terrain tyres:Large, robust tyres ensure optimum grip on a wide variety of surfaces - ideal for outdoor adventures.-Educational value:The construction of the model promotes fine motor skills, spatial thinking and technical understanding - learning fun for young engineers.-Perfect gift for Christmas:This Advent calendar combines the joy of building with the excitement of a remote-controlled vehicle - a great gift idea for children who love technology.-Easy control:The remote control in the GHz range enables precise control of the RC Crawler, even in challenging terrain.Background informationThe Revell Control RC Crawler is a highlight for anyone who loves adventure and technology. Inspired by real off-road vehicles, this model has been specially developed to master the challenges of different types of terrain - from gravel paths to hilly lawns. Revell, known for its high-quality model kits, combines the fun of building with real driving pleasure. The Advent calendar not only offers daily surprises, but also arouses curiosity about technology and mechanics - perfect for young tinkerers and future engineers. With this crawler, every day of Advent becomes a new adventure!1:18
