from **153,11 EUR**

Item no.: 397219
shipping weight: 1.50 kg
Manufacturer: TAMIYA

Product Description

The Motul Autech Z was used by the NISMO team in the 2023 Super GT series. Although the racing car is very similar to the Z road car, it is a racing car through and through: It has a complete carbon fibre body and a 550PS 2 litre 4-cylinder turbo engine. The original won the first race in Okayama in 2023. The 58735 TAMIYA 1:10 scale model is based on the tried-and-tested TT-02 chassis. The wheelbase, ground clearance, track and gear ratio can be adjusted in many ways and the chassis can be quickly tuned into a racer with the countless optional tuning parts. The 4WD drive with central shaft, double wishbones and suspension struts on all four wheels ensure a true-to-life driving experience and optimum traction. The underside of the chassis has an extra smooth design and the battery compartment accommodates all standard battery types. A visual highlight are the wheel drivers, which have attached dummy brake discs. Required accessories: Remote control with receiver, steering servo, 7.2V NiMH battery pack, charger, 4WD kit model, TT-02 chassis, Elect. Drive controller, 540 torque-tuned motor, unpainted polycarbonate body with add-on parts, cardan drive, suspension struts, independent suspension, tread tyres, hull frame chassis, instructions. Caution! Not suitable for children under 14 years. Product details: - 1/10 scale kit model - beginner-friendly TT-02 chassis - extremely robust - length: 468mm, width: 188mm, height: 120mm, wheelbase: 257mm - encapsulated 4WD all-wheel drive - prototypical, unpainted 1.0mm polycarbonate body - ABS add-on parts: side mirrors and large rear wing - 6-spoke rims with 26mm tyres - independent front and rear suspension - electronic cruise control - many optional tuning parts available
