 Dornier Do 335 "Pfeil"-Length: 29 cm-Height: 10.4 cm-Part number 03795  
 Recommended age 12  
 Scale 1:48  
 Individual parts 81  
 Discover the breathtaking world of model making with the Dornier Do 335 "Pfeil" kit. This 1:48 scale model with its 81 precisely manufactured parts is a tribute to the fastest piston-engined aeroplane of its time. With a length of 288 mm, a height of 104 mm and a wingspan of 275 mm, the result is an impressive model that honours not only the history but also the engineering skill of the original. Recommended for modellers aged 12 and over, this set is categorised as Level 4 and offers advanced modellers a challenging and rewarding project.  
 Scope of delivery:-81 highly detailed components-Figures for a vivid representation-Authentic decal for realistic markings-Detailed instructions for smooth assembly  
 Special features:-Detailed surface textures that bring the model to life-Included figures for authentic scenery-Authentic decal that shows the model in its historical accuracy-Unique design with front and rear engine arrangement that makes the Do 335 so special  
 This kit is ideal for advanced modellers (level 4) who already have experience in gluing and painting. Its challenging assembly promises hours of fun and a breathtaking end result. Whether as a gift for passionate modelling enthusiasts or as a new challenge for yourself, the Do 335 is an excellent choice.  
 Background information:The Dornier Do 335 "Pfeil" was a milestone in aviation history. Its exceptional speed and design, characterised by the arrangement of one engine at the front and one at the rear, made it the fastest piston-engined aircraft of its time. Raised into the air for the first time in 1943, this model not only reflects technical innovation, but also a fascinating piece of history. Build not just a model, but a piece of history that will make an impression in any room.
