Product Description

With our M1A1 AIM(SA)/ M1A2 Abrams model kit, you can assemble a modern US main battle tank in miniature form yourself. The kit contains 126 high-quality components and, with a length of 140 mm and a scale of 1:72, offers a convincing replica of the original. For all fans of technical details and precision: The model comes with an injection-moulded track with individual links and sections, a rotating turret and turret hatches that can be optionally displayed open. The recommended age group of 12 years and up also allows young modellers to try their hand at this challenging project. Scope of delivery:- 126 components for the M1A1 AIM(SA)/ M1A2 Abrams- Injection-moulded track with individual links and sections- Rotatable turret- Displayable turret hatches The M1A1 AIM(SA)/ M1A2 Abrams kit is suitable for both beginners and advanced modellers and offers an interesting challenge for all age groups from 12 years upwards. Whether for display or as a valuable addition to a collection - this kit offers a wide range of possible uses. The M1A1 AIM(SA)/ M1A2 Abrams kit impresses with its faithful reproduction of the original. The special feature is the high-quality injection-moulded track, the rotating turret and the displayable turret hatches. These features allow you to customise and adapt the main battle tank. Background information: The M1A1 AIM(SA)/ M1A2 Abrams is a further development of the M1A1 and an important representative of modern tank technology. With an improved fire control system and increased protection capacity, it epitomises the advanced military technology of the USA. With our model kit, you can recreate this technical masterpiece and bring a piece of military history into your living room. Immerse yourself in the world of model making and experience the thrill of mastering a technically demanding model such as the M1A1 AIM(SA)/ M1A2 Abrams. Your patience and precision will be rewarded with an impressive result! Caution! Not suitable for children under 12 years.
