### Product Description

1:8 IXO Bugatti 57 SC Item number: 520010108 Age recommendation: from 14 years The Bugatti Type 57 was developed by the then son of company founder Jean Bugatti. He contributed the essential elements for the vehicle. Due to various improvements to the vehicle, the Type 57 was produced in 3 different model series. The Bugatti 57 SC was produced exclusively from 1936 to 1938. The SC version of the Bugatti was characterised by the Roots supercharger, which enabled the vehicle to reach a top speed of approx. 225 km/h with the help of the 3357 cm<sup>3</sup> displacement. The vehicle's power output at 5500 rpm was 147 kW, which corresponds to 200 PS. Officially, only 41 vehicles of the 57 SC type left the production halls, as the S-type chassis was then discontinued, although there were some subsequent modifications of the Bugatti 57 S, which were retrofitted with a supercharger. -Reproduction of the powerful --3.3 litre in-line eight-cylinder engine, -Engine bonnet, doors and --movable spare wheel cover, -Detailed interior --with dashboard, headlights, -rear lights and interior lighting-kit with more than 515 parts, -143 die-cast metal parts Product details- 515 parts (143 die-cast metal)- Total weight: approx. 5.0 kg- Plastic parts are already pre-painted- Movable bonnet, doors and spare cover- Detailed replica interior- Headlights, tail lights and interior lighting- With detailed chrome rims- High-quality detailed rear view with true-to-original silhouette- Detailed replica of the 3.3-litre in-line eight-cylinder engine
