shipping weight: 0.20 kg
Manufacturer: Cocktail Games

Product Description

Hanabi is the Japanese word for fireworks. It is made up of the Japanese words for fire and flower. In Hanabi, you want to conjure up a firework display in five colours in the sky that the audience will remember for a long time! In Hanabi, you conjure up a magnificent firework display in the sky together. To do this, you have to form 5 ascending rows of numbers in different colours. The problem: you can't see your own hand cards! What's more, you can only give each other very specific clues about your cards. Only if you work together and communicate cleverly with each other can you create the most beautiful fireworks! This new edition of the 2013 Game of the Year offers you fresh, modern artwork and already includes 3 expansions with "Colourful Fireworks", "Black Powder" and "Bonus Tiles", which make your challenges even more varied. 2-5 Players 8+ Age 30+ minutes Game content- Cards: 70- Fault tiles: 3- Hint tiles: 8- Bonus tiles: 6- Instructions: 1
