Product Description

Welcome to the world of Mistwind! We are on the fabled Mistwind Isles; in their newly explored territories you will find bustling cities filled with hard-working citizens - from mushroom-growing farmers to brave deep-diving divers. Transport whales float above the dense fog, ferrying citizens and cargo from harbour to harbour. Fogwind is growing rapidly and the leaders are seeking contact with neighbouring realms to expand trade networks that will fill your coffers for a long time to come. You are the managing director of a trading company and want to make a name for yourself in Fogwind. By playing action chips, you collect and deliver cargo and conclude trade agreements with neighbouring nations. Your goal: to maximise the efficiency of your networks and become the most trustworthy trader in Fogwind. However, you must always keep an eye on the demand in your territories.
