A severed arm had already been discovered on the muddy banks of the Thames in September. Once again, a murderer stalks the streets of London, taking pleasure in scattering the body parts of a poor woman around Whitehall like a macabre scavenger hunt. Rumours once again suspect Jack the Ripper is behind this heinous murder. But the true identity of the murderer and his unfortunate victim remains a mystery: the Whitehall Mystery. The Whitehall Murder is a clever deduction and bluffing game for 2 to 4 players aged 13 and over, set in London in the time of Jack the Ripper.
