Product Description

Cryptic Nature Cryptic Nature is an upcoming competitive strategy board game for 2-4 players. Follow our Kickstarter project in January 2024 to pre-order this game. You have dedicated yourself to cryptozoology and are in search of unusual animals whose existence you are trying to prove. In this world, they really do exist, but are perfectly hidden from humans. You must not only track down these unique creatures, but also relocate them to a safe environment. Several cities are willing to offer refuge to some of these animals, but a separate nature reserve must be created for the others. Your goal is to become the most respected cryptozoologist by tracking down, capturing and settling cryptids.
