Product Description

"The Alphabet" is a fun game for matching letters and pictures. It develops vocabulary in the youngest children, teaches the formation of correct answers, as well as recognising and naming objects. The game uses specially selected vocabulary that relates to the child's immediate environment, as well as letters in handwriting (upper and lower case) that provide a good model for future preschool education. For children aged 3 and over. For 1-4 players. Caution! Not suitable for children under 3 years. Contains small parts that can be swallowed - choking hazard!
