Product Description

In Stamp Collection, players take on the role of philatelists whose aim is to build up a collection of unique stamps from all over the world! There's no better place to do this than the collectors' market, where you can find real gems and complete your collection with fantastic specimens. There you will also meet other collectors who will enjoy looking at your collection and often appreciate it. Do your best and show off what you have collected! The stamps for your collection are bought from a general pool, but their price changes during the round. A player can only place a selected stamp on their collection board once the field has been prepared, i.e. a "base" tile of the corresponding colour has been placed. As the collection grows, the philatelists can be visited by other collectors who bring them boxes of chocolates, which are worth extra points at the end of the game. Package contents: 4 collecting boards, 1 collector's market game board, 88 playing pieces, 11 bonus tiles, 24 boxes of chocolates, 6 connoisseur figures (with bases), 4 loan tokens, 40 coins, Instructions. For 2-4 players. Recommended for children aged 8 and over. Item number: TR02544. EAN: 5900511025446. Standard assortment. Caution! Not suitable for children under 3 years.
