Product Description

Work is in full swing in Dr Frankenstein's laboratory! The mad scientist and his helpers are preparing to create a new monster. To do so, they first have to gather all the ingredients for this sinister idea. It's hard to believe what Dr Frankenstein has in his pantry, which is filled to the brim! To make matters worse, the required ingredients are at the bottom of the piles! So before you can prepare the recipes, you need to reorganise your supplies a little. The plans are ambitious, so everyone tries to collect the required ingredients as quickly as possible in order to finish in time before everyone else. Each player has 5 recipe cards on which they can see which ingredients they need. To collect these, the "pantry" laid out on the table must be moved so that the required ingredients are on top of the harvest. The first player to collect all the ingredients for a crazy experiment wins! Package contents: 60 ingredient tiles (12x brain, heart, eye, hand and teeth each) 20 recipe cards (5 for each player) Instructions For 2-4 players Recommended for children aged 8 and over. Item number: TR02545 EAN: 5900511025453 Standard range Caution! Not suitable for children under 3 years. Contains small parts that can be swallowed - choking hazard!
