Product Description

There are not enough castles in this world! That's obvious! In Castle Builder, players take on the role of barons competing to see who can build the most beautiful castle in the kingdom. Build sky-high towers and impenetrable walls. The higher you build, the more steps your baron takes and the more coins you earn. However, as each tile must match the numbers on which it is built, it becomes increasingly difficult. Can you be the first to earn 7 gold coins? Game type: Family game Placement game
