Product Description

Recreate the legend: Bismarck model kits in a double pack (1:700 & 1:1200) Discover the fascinating history of the Bismarck, once Germany's most powerful battleship, with our exclusive gift set "The Legendary Bismarck". This set includes two detailed models on a scale of 1:700 and 1:1200, which depict the ship in different sizes and perspectives. With a total of 326 parts, this set offers a challenging and rewarding building experience for modellers aged 12 and over. The models are characterised by a detailed hull and propulsion system, decks with realistic plank structure and gun turrets with individual movable tubes. These high-quality features ensure an authentic and historically accurate model of the legendary battleship. Scope of delivery - Two model kits of the Bismarck (scale 1:700 & 1:1200) - 326 individual parts - Basic paints, glue and brushes - Detailed building instructions This model kit is ideal for advanced modellers (level 4) who have experience in gluing and painting models. It offers a challenging yet satisfying experience that promotes both fine motor skills and an understanding of historical ship modelling. Special features - Two different scales offer a unique perspective on the historical ship. - Highly detailed representation for a realistic modelling experience. - Includes all necessary materials to start the modelling project immediately. Background information The Bismarck, commissioned in 1939, was known for her impressive size and firepower. Her most dramatic moment was her pursuit and sinking by the Royal Navy in May 1941, a decisive turning point in the Second World War. This model kit offers not only an impressive modelling project, but also an insight into an important piece of history. Immerse yourself in the world of shipbuilding and experience the legend of the Bismarck up close. Age recommendation: 12 Scale: 1:700 + 1:1200 Individual parts: 326
