Product Description

RC Advent Calendar Christmas Driver - driving fun and festive spirit in one! The RC Advent Calendar Christmas Driver from Revell Control combines the magic of the pre-Christmas period with thrilling RC driving fun - all in a beautiful, festive design! Suitable for children aged 6 and over and adults alike, this model offers a fantastic mix of creativity, technology and the sheer joy of driving. Whether for beginners or RC enthusiasts: The Christmas Driver guarantees daily surprises and increases the anticipation of Christmas with every little door. What makes the Christmas Driver so special? The vehicle's illuminated lights bathe every room in festive splendour and create an enchanting atmosphere. The easy-to-use remote control ensures that the vehicle is easy to control, whether it's racing across the carpet indoors or the pavement outside. This RC car is not just a model, but an invitation to daily play - the perfect gift for curious children and creative adults. The easy assembly of the model also encourages dexterity and technical skills, making the Christmas car the ideal choice for young tinkerers and their families. Scope of delivery: RC Advent Calendar Christmas Driver in a festive design, Full lighting system for a festive glow, Detailed, easy-to-understand assembly instructions, High-quality radio remote control (2.4 GHz for interference-free control) (Note: batteries not included). Special features: Festive Christmas design: The lovingly designed vehicle creates a Christmassy atmosphere and makes it an eye-catcher in any room. Full lighting: Lights on the vehicle enhance the Christmas atmosphere and give it a particularly festive look, especially at dusk or in darkened rooms. Easy assembly: Perfect for beginners in RC modelling - assembly is straightforward and encourages children's creativity and technical understanding. Precise remote control: The 2.4 GHz remote control ensures a stable connection and precise control, making every ride a real pleasure. Ideal for indoor and outdoor use: Compact design, perfect for indoors, but can also be used in quiet outdoor environments. Background information: The RC Advent Calendar Christmas Driver is more than just a remote-controlled car - it is part of a decades-long tradition of Revell Control to develop innovative and high-quality RC products. With its Christmassy design and integrated lighting, the Christmas Driver not only brings joy but also a festive atmosphere to every home. Revell Control is known for its attention to detail and precise workmanship, and with the Christmas Driver the company has created a perfect combination of modelling and driving fun that will delight both children and adults. The Advent calendar offers the opportunity to discover something new every day and look forward to the grand finale - the complete RC car. This turns the anticipation of Christmas into an unforgettable experience! Age recommendation: 6 Scale: 1:22
