Product Description

Starfinder - Paktwelten Aufstellersammlung (DE)

The characters, villains and spaceships of the Paktwelten come to life on your gaming table with this collection of more than 200 creature and spaceship displays! They can be used as part of the Starfinder RPG or any Science Fantasy RPG.

The displays show beautiful, multi-colored characters, alien creatures and spaceships - perfect to represent your next character or highly dangerous extra-polar enemies!

Each display is printed on both sides on sturdy cardboard and can be plugged into a base suitable for its size. This way they can easily be used with traditional metal or plastic figurines. This collection contains several displays for commonly encountered creatures, NPCs and spaceships and is the best way to bring your Starfinder campaign to life!

Warning! Not suitable for children under 36 months.
