Product Description

New Hong Kong Story - Adventure Dragon Sword (DE)

In Dragon Sword, the actors are confronted with a millennia-old mummy that was found during the expansion of the subway line from Kowloon to Hong Kong Island. As students of the Li-Wong Fighting School, they have to look their predetermined fate in the eye.

The adventure is laid out in modern times and is a pure martial arts film with wuxia elements. He was inspired by the Hong Kong film Iceman Cometh and the Korean film Arahan. The playtime of the adventure is about 8 hours.

The New Hong Kong story adventure Dragon Sword contains:

- The complete film with detailed descriptions of all roles and Scenes
- Two optional locations that the director can use to vary the season
- Seven A3 plans of the locations and an additional map of Hong Kong, also in A3 format. All plans are four-color and hand-drawn
- A5 folder to store the cards
- 15 four-color Polaroid pictures of the NPCs as handouts
- Counter of the film rolls and NPCs, with which the action scenes can be shown on the plans
- Ideas for the sequel Dragon Sword 2: Return of the Tiger

The New Hong Kong story adventure Dragon Sword comes in a practical A5 format that fits anywhere, and with a spiral binding that allows the pages to be easily folded over. Warning! Not suitable for children under 36 months.
