Product Description

New Hong Kong Story - game master screen, brown (DE)

The New Hong Kong Story game master screen is in three parts. The format of the individual segments is DIN A5 landscape, so that it is 65 x 15 cm when opened. The game director's screen is printed in four colors on the outside and laminated with a glossy finish. The inside is unprinted and provided with two triangular pockets, so that the screen can be equipped individually.

The low screen has the advantage that there is no unnecessary distance to the players. It is also available with a different motif.

Warning! Not suitable for children under 36 months.
