## Product Description

Pathfinder - Monster Compendium Rulebook (DE), 256 pages

The biggest surprises always come from the most trusted opponents! Just as a single class description cannot cover every fighter, mage, or villain, a single monster entry can never include every bloodthirsty champion, unholy priest, or ferocious warlock in a gang of intelligent and organized monsters. This volume provides you with elaborated hordes in the form of a treasure trove of entries for 20 classic monster peoples, so that you can use your favorite monsters in new encounters and challenges.

The volume contains:

- Specialized entries on 20 classic monster races, including goblins and drow and goblins and trolls. Meet formidable opponents in the form of gnoll pack leaders, rat folk scholars and warriors of the lizard people riding on dinosaurs!
- Detailed information on the way of life and social behavior of these creatures.
- New talents, equipment, spells and archetypes, to individualize all 20 monster races - and the adventurers who fight against them or trade with them.
- Each time a new monster associated with one of the monster races - allies, servants and variants. - Sample encounters to challenge newbies and veterans.

Warning!Not suitable for children under 36 months.
