Pathfinder - Saga 1: Prince of Wolves, Paperback (EN), 376 Pages

For half-elf scout Varian Jeggare and his devil-blooded bodyguard Radovan, things are often not as simple as they seem. But not even this notorious investigative duo is equipped for what they find when they search for a missing scout in the eerie, mist-shrouded mountains of Ustalav. Intrigues of the nobles, mysterious locals and deadly creatures of the night threaten Varian and Radovan from all sides. Only a pack of sinister werewolves and a mysterious mute priestess come to their aid. To find the source of strange rumours and unravel a mystery of unimaginable proportions, sword and magic must be used in equal measure. But to complete their mission, it will take more than just solving the mystery. Shadowy figures have become aware of the duo's investigations, and the forces of darkness have made it their goal that neither of the two should ever leave Ustalav alive again ... A fantastic novel from the pen of popular author Dave Gross set in the award-winning world of the Pathfinder role-playing game.
