Product Description

The Black Cat - Velvet Paws, paperback (DE), 48 pages, 2nd revised edition

One moment a gentle purr, the next the fangs bared to hiss. Awakened people are as unpredictable as their ancestral mother Aphasma, who sways on velvet paws in her dance. Who can really see through the whims of cats?

This anthology deals with the social conflicts, problems and hopes of the society of the awakened. In the course of this, heroes can earn fame and respect or, if they are not careful enough, make bitter enemies for life.

The big hangover breaks out in the upper floors when rumors spread that none other than that most beautiful cat of the quarter, Lyra Wölkchen, is looking for a partner and father for her first litter. The tomcats fight bitterly for their favor. And also for the awakened: Everything is allowed in war and in love.

Greed and envy are daily bread in the company of cats. Ramon from AlAnfa provokes a lot of envy these days in bells clinkers, who never tire of rubbing every cat's nose that a valuable bird of paradise is in his possession. Paws greedily reach for his property, but Ramon will not leave his property to anyone without resistance.

In The Kiss of the Muses, the heroes who mean the world end up on the boards. Wilderia Silbertatze dreams of a great epic full of heroism and drama, with which she wants to raise Havena's first cat theater. But for this she still needs a capable assemblage of actors and helpful paws.

This anthology is aimed primarily at players who prefer narrative storytelling and who thrive in intensive interaction with the game world.

Warning! Not suitable for children under 3 years!

The set of rules - The black cat is required!
