Product Description

DSA Adventure - Star Bearer 2: The Sound of Feyraasal, paperback (DE), 64 pages

Star bearers are the elves who carried the star-shaped mark on their shoulder which they determined to be chosen for higher tasks. According to legends, they once directed the fortunes of the fenvar, the high elves, until the armies of the dhaza, the nameless unlight, put an end to their empire.

In the plains of the north, where rough wind and rain over the Whipping land, the heroes with their newly recovered and restored artifact, the flying ship Bahalyr, follow in the footsteps of its builder Amalaia. But why do all traces indicate that the once so hopeful elf returned from the north bitter and disaffected? And which powers in the north are behind it that their soul song is blown away in disharmonious fragments? The heroes will have to face this danger in order to be able to further fathom the fate of the star bearer.

In this second adventure of the star bearer campaign, the further journey of the heroes and their companions on the flight ship Bahalyr is described at which they follow in the footsteps of feysala, the song of life, the star bearer Amalaia.

Warning! Not suitable for children under 36 months.

That Rules are required as well as the Aventurian Almanac. In addition, Star Bearer I - The Call of the Bahalyr should have been played beforehand.
