### Product Description

DSA5 Playing Card Set - Treasures & Precious items 2 (DE), 55 cards

The enemies are defeated and their treasures are looted. The explorer hides a precious gem from a ruin sunk in the sand, or the facade climber stumbles over a colleague's loot on the roofs of the city. On every game evening, your group of heroes can get hold of treasures unplanned. This treasure map set enables you to face such situations spontaneously and without worrying. Of course, you can also use it when preparing an adventure for fixed treasures to make your work easier.

On 53 maps there are large and small treasures especially for the lands of the Tulamids and Novadis, from the scorching Khm to the noisy Khunchom.

Warning! Not suitable for children under 36 months.

The set of rules is required!

- Scope: 55 cards
