Product Description

DSA5 Playing Card Set - Treasures & Precious items 5 (DE), 55 cards

The eternal jungle reveals the remains of a hapless Questador and some of her possessions still seem usable. The burglar has overcome the ingenious traps of the AIAnfaner grandee and cracked his dwarf safe, or the explorer undaunted penetrates the taboo zone of the Utulus tribe and finds an old treasure chest. On every game evening, your group of heroes can get hold of treasures unplanned. This treasure map set enables you to face such situations spontaneously and without worrying. Of course, you can also use it when preparing an adventure for fixed treasures to make your work easier.

On 53 maps there are large and small treasures especially for the south of Aventuria: from the steaming jungles of Meridiana across the huge rain mountains to the neglected alleys and pompous palaces of the colonial ports and mighty metropolises.

Warning! Not suitable for children under 36 months.
