Product Description

DSA5 Playing Card Set - Aventurian Masters 2: Mentors & Teacher (DE), 55 cards

This playing card set contains 53 masters who, thanks to their high skill values and mastered special skills, are particularly suitable as teachers or mentors for the heroes in your game. We have not given full combat values, because the focus of this playing card set is on the interaction with master characters, not on fighting them.

You can also shuffle the cards and thus bring a random NPC into the adventure. They can also be used to react quickly to the actions of your players. In this function they can easily be used as a supplement to the playing card set Aventurian Masters - Trade & Change can be used.

Each part of the card text can serve as inspiration or be disregarded, depending on what you need for your story. The cards provide you with ideas for talents, fighting techniques, magic traditions and general special skills for which the respective person is suitable as a mentor or teacher. In addition, each character receives a proposal for an individual adventure that you can spin around your favorite master characters!

Warning! Not suitable for children under 36 months.

The set of rules is required! As well as Aventurian Masters - Trade & Change.

- Scope: 55 cards
