Product Description

Das Schwarze Auge - LARP rules, hardback (DE), 202 pages

Das Schwarze Auge is not only Germany's most popular role-playing game but also one of the most popular settings for live Role Playing Games (LARPs). Almost every weekend there is a live con somewhere in the world of Aventuria.

In this book you will find an official set of rules for the first time to represent DSA in LARP. It not only contains rules for character creation, combat, talents and the representation of typical Aventurian elements, but also a lot of tips for players and orgas who want to hold Con in Aventuria. In addition, chapters with exemplary LARP plots, anecdotes from 20 years of DSA-LARP history and a huge number of great pictures straight from the game.

The rules were developed by Nico Mendrek and Mháire Stritter from Orkenspalter TV in collaboration written with Karsten Dombrowski and David Jung from the LARP era. To play magicians and consecrated people, the Magic and Prayer Book is necessary.

Attention! Not suitable for children under 3 years!
