Product Description

DSA Sphärenklang - The Seven Wind Coast (DE), Audio CD

The windswept shores of the Seven Wind Coast are home to ancient nobility, indomitable clan warriors, wandering magical bards but also powerful fairies, the influence the fate of mortals from the hidden otherworld.

This audio CD was designed by Ralf Kurtstiefer and his creative team under the Orkpack label to musically depict the many facets of the Seven Wind Coast.

Meet idiosyncratic, dangerous fairies of enchanting beauty or abysmal ugliness. Fear Efferd's wrath on the cliffs and the tentacles of his adversaries. Argue against smugglers, robbers or in the name of independence. Admire the glittering west wind dragons and search for wisdom from those devoted to Efferd or strength from the fairy-sworn thistle knights. All of the items included have been specially designed for the game on the Seven Wind Coast. But it is also suitable as background music for other stories or simply as an entertaining musical enjoyment.

Warning! Not suitable for children under 36 months.

That Rules is required! As well as the Seven Wind Coast.
