### Product Description

DSA Sphärenklang - The Warring Kingdoms (DE), audio CD, 2nd edition

For almost two millennia, the eternal dispute between Nostria and Andergast has been simmering over it also called The Warring Kingdoms.

This audio CD was designed by Ralf Kurtstiefer and his creative team under the Orkpack label to musically depict the numerous facets of the region on a journey through the Warring Kingdoms:

Experience mysterious encounters with solitary druids, discreet witches and the spirits of the forests, visit mystical stone circles, enchanted springs or a village wedding party and roam the impenetrable forest wilderness. Be there when the fighters of the two kingdoms meet in a gripping piece of music and cross their blades in anger!

This CD was specially designed for the game in the Warring Kingdoms. But it is also suitable as background music for other stories or simply as an entertaining musical enjoyment.

Orkpack: This is the creative team around Ralf Kurtstiefer, consisting of Sönke Kaufmann, Cornelius Pees, Arne Schippmann and Melanie Kurtstiefer.

Warning! Not suitable for children under 36 months.

The rules are required! As well as the Warring Kingdoms.
