Product Description

The Phileasson saga - Elfenkrieg, novel (DE), 752 pages, volume 8

Asteif Phileasson, the greatest of all explorers, leads the procession of beggars towards a home . There the poor find hope, but also dangers threaten - from the vain rich as well as from the scaled people of the jungle and the beasts that hunt in green shadows. Meanwhile, Beorn the Blender has ended up in a strange world. Mist-shrouded shores beckon with magic and a beauty that Aventuria has lacked for thousands of years - and with treasures that promise the greatest of all looters a refuge that no Thorwaler has ever owned. Warning!Not suitable for children under 36 months.
