### Product Description

The Phileasson Saga - Dead Sea, Roman (DE), 672 pages, volume 6

The seaweed fields of the Sargasso Sea choke the hopes of the sailors who get caught in their clutches. They stifle the dreams of the merchant, the pride of the marines, the courage of the shark hunters. Over the centuries, the greed of this empire of no return has also accumulated a lot that arouses desires. This lure sounds even in spheres whose inhabitants are enemies of all gods. The sixth task of their race calls for Asleif Phileasson and Beorn the Blender to recover something in this place that is more precious than profane treasures. But only one of them will be successful ...
