## Product Description

Private Eye - Perfect Crimes, Adventure Volume 6, 80 pages (DE extension)

The solved case

The singer Jenny Sapphire was murdered. There is sufficient evidence, as is a plausible theory about the murderer. Finding and arresting him should be a piece of cake for the detectives. Praise headlines in the newspapers are guaranteed and they could bask in the anticipated fame, if ... yes, if a stale aftertaste wouldn't tarnish these rosy future prospects. Another person has already solved the case and gives the detectives what they need to arrest the perpetrator. But not everything - after all, there is one tiny little thing, a favor that the detectives could do in return ...

Dark secrets in Voles Hollow

Voles Hollow, a small village on the Itchen River, dreams away in the picturesque Hampshire countryside. A good two hours away from London, life here goes on at a leisurely pace. And if an old lady dies here, it is of course regrettable, but not unusual either - after all, everyone has to die sometime. But this time a chain of inconsistencies calls the best friend of the dead and finally the village policeman on the scene, so that he asks the detectives to investigate the death of the old teacher more closely. We leave it to the detectives to determine whether something is really wrong and what else there is to discover.

Warning! Not suitable for children under 36 months.

- Language: German
- Number of pages: 80
