Product Description

DSA5: The Suncoast - Playing Card Set

From the cloud-crowned High Eternals to the ever-wet swamps of Harodia, from the dusty, remote hinterlands of Chababia to the pastures of the Cyclopean Isles hemmed in by rocky bluffs, the Sun Coast is perhaps the most geographically, culturally and commercially diverse region of the entire Aventurian West Coast.

This set of 168 cards contains the spells, rituals, liturgies, ceremonies, special skills, traits, equipment and other useful content from the regional game aid The Suncoast, the region's armoury and the adventure Labyrinth of Intrigue. The cards contain all the relevant information so that you can use them directly in the game as a master.
