Product Description

DSA5: The Sun Coast - Map Set

From the cloud-crowned High Eternals to the ever-wet swamps of Harodia, from the dusty, remote hinterland of Chababia to the pastures of the Cyclopean Isles hemmed in by rocky bluffs - the Sun Coast is perhaps the most geographically, culturally and commercially diverse region of the entire Aventurian West Coast.

In keeping with the regional game aid The Sun Coast, the maps provide a detailed overview of the south of the Horas Realm. In addition to a three-part out-game overview map of the region, the map set includes an atmospheric in-game map of Magna Thalassea as it might be available to your heroes within the game world.

In addition to the maps and town plans, the set includes a double-sided A1 poster featuring the cover art of the Regional Game Guide and the Suncoast Armoury.

The map set contains the following maps:

- a detailed map of the Wild South and the Cyclops Islands in A2,
 - overview maps of the geographical regions and the political division of the Suncoast, each in A3,
 - an in-game map of the Suncoast in A2,
 - city maps of Neetha and Dról in A4,
 - city maps of Morbal, Rethis, Teremon and Thegún in A5,
 - a map of a typical labyrinth in the Wild South or on the Cyclops Islands in A4
- Language: German
 - Type: Map set
