Product Description

DSA: Faith, Might and Valour - The Suncoast, Supplementary Rules (DE Edition)

Whether a tradition-conscious Hylail sea warrior or a determined Harodian law-keeper, whether a travel-loving Aves devotee from Teremon or a curious member of the Draconite order from Thegün - the Sun Coast is home to an incalculable variety of heroes. Ships from a wide variety of lands dock in the ports of Magna Thalassea, and when they return home, the heroic daughters and sons of the southern Horas Empire also carry them to adventures across the continent, facing them with faith, might and valour.

This focus rule supplement introduces you to talent, combat, spell and liturgy styles as well as matching Advanced Special Skills for the profession packs from the DSA5 regional game aid The Suncoast.

Attention! To use these supplementary rules, you need the Black Eye Rulebook, the Aventurian Almanac and The Suncoast - The Savage South & Cyclops Islands.
