Product Description

DSA5: The Suncoast - Game Plan Set

A battle with several participants can be a confusing affair. So that neither player nor game master lose track of the situation, we offer you game plans for battle scenes on which you can represent the positions of the combatants with your game markers or miniatures in order to keep battles and other scenes clear. If two markers are close together on the game board, the corresponding combatants are within range for close combat.

In this booklet you will find game plans for five different battle environments on the Sun Coast, both in the Wild South and on the Cyclops Islands.

The following game plans are included:

- The Temple Ruin (A2)
- The Hill Country (A3)
- The headland (A3)
- The Mangroves (A3)
- The Volcano (A3)

Attention! To use the game plans, we recommend the acrylic marker set The Sun Coast as well as the publications from the Tools of the Master series.

- Type: Game Plan Set
