### Product Description

175 years in the future. The fate of the human sphere will be decided on Paradiso. Whatever happens on this planet will determine the future of humanity. The awakening of the mysterious technology of the Cosmolites on Paradiso has created a desperate race between the various powers of the Human Sphere, as well as their enemies in the United Army, to gain possession of these secrets. The unexpected emergence of a new race, the Tohaa, however, brings a new element into the equation. Is this new advanced civilisation, which has been in a war of attrition with the United Army for years, a new ally for humanity? Or are their intentions not entirely altruistic? What secrets are the Tohaa hiding? And what is their relationship with the Cosmolites and the history of Paradiso?

Faced with the rising threat of the Evolved Intelligence and its alien United Army, the human AI ALEPH has been authorised to create an assault subdivision: the Steel Phalanx of Achilles and his Myrmidons. Will this be a ray of hope in humanity's darkest hour or just the next step in ALEPH's plans to control the Human Sphere? Infinity - Paradiso Campaign immerses you in the history of the Infinity universe, uncovering ancient secrets and dark conspiracies that shed new light on past events, changing the present of the game and opening new paths to the future.
