### Product Description

It was already getting dark on the Great River when we reached the "Flußteufel". This pub in Ferdok is brand new. We were all thirsty and the great atmosphere inside promised a fun evening. We pushed our way to the door in high spirits. Nobody noticed the dark figures in the background, nobody paid attention to the dangers. Not even you! And that's why you're now caught up in this damned boat, in the middle of the river that seems to lead to destruction. You and your companions are still alive ... "The River of Doom" is a group adventure, designed for 3-5 heroes of experience levels 5-10.
