### Product Description

Master's survival pack 1 - Floor plans for all occasions by Wolfgang Röhling Our most popular folder with universally applicable floor plans of various buildings. In addition, Chris Schlicht drew us stylish views of eight of the ten buildings to show what they might look like. And there are also suggestions for adventures. And this is what's inside: a large castle, a temple complex, two villas, a rest stop, a fortified estate, a camp and three inns, each with separate maps for the game master (with secret areas) and the players (without the special information).
