from **21,35 EUR**

Item no.: 385184

shipping weight: 0.70 kg

Manufacturer: Redaktion Phantastik

Product Description

Finsterland - Basic RulebookThe old emperor is dead, the new one is young and inexperienced, the electors lust for power. Industrialisation and numerous new ideas and inventions are changing a society that is still partly stuck in medieval bonds. Sinister creatures of steel and fire, conspiracies and sorcery threaten the world. The civil war has left the Darklands in a chaotic state. The common people cling to their old values, but at the same time technological development is advancing ever more rapidly. The corset of social constraints threatens to burst as new forms of society come into fashion. Huge airships and the smoke of factories darken the sky. Powerful mages, greedy politicians and secret conspirators: each faction tries to get the biggest piece of the pie. The basic rulebook offers everything you need to play in the world of Finsterland. All the rules, character examples, an overview of the game world, tips for the GM and an introductory adventure.
