shipping weight: 0.40 kg

Manufacturer: Redaktion Phantastik

Product Description

Master's survival pack IV - Floor plans for ships by Kim Schneider "Shipping is necessary, living is not." Pompeius (+ 48 BC) More seafaring in your role-playing game! Here are 10 ships: from an Egyptian papyrus boat to a trireme, cog and a Viking ship to a caravel and finally an 18th century galleon. There is also a Chinese junk, which has remained timeless over the centuries. Each ship is provided with floor plans, a longitudinal section, a general view and technical data. For the helmsman, there are scenarios and three articles on the history of seafaring, as well as a sailor's encyclopaedia. Ready to board! Ship ahoy!
