This 1:12 scale kit is a true masterpiece of modelling artistry, consisting of 155 precision-manufactured parts that create a realistic replica of the original. With a length of 392 mm, a width of 153 mm and a height of 108 mm, this kit recreates the iconic sports car in impressive size and authenticity. Recommended for modellers aged 13 and over, this kit represents the highest level of model building - Level 5. It demands and promotes in-depth knowledge and skills in assembly and detail design. Scope of delivery: Multi-part V8 engine Versatile "3 in 1" kit: Choice between the Z/28 version or an optional racing version Comprehensive decal set with various US licence plates and other details The 69 Chevy Camaro kit is ideal for experienced modellers. As a Level 5 model, it requires in-depth modelling knowledge and skills. Perfect for those who are looking for a challenge and enjoy accurately recreating historic vehicles. Special features: This kit is characterised by its high level of detail, including a multi-part V8 engine that reflects the technical sophistication of the original. The "3 in 1" approach offers design flexibility by allowing you to choose between the classic Z/28 variant and an exciting racing version. In addition, the extensive decal set with authentic US licence plates increases the realism of the model. Background information: The 1969 Chevrolet Camaro, with over 250,000 units sold in its first year, set new standards in the automotive world. Particularly impressive was the Z/28 variant with its 4.9 litre engine, which put 290 hp on the road. The Camaro was distinguished from other models of its time by its distinctive wings with pronounced edges and larger dimensions. This model kit brings this automotive icon directly into your hands and allows you to experience and admire a piece of automotive history. Age recommendation 13 Scale 1:12 Individual parts 168
