Product Description

Senior Rummy on FSC material and sustainably produced. The classic game from ASS Altenburger with a new look! We at ASS Altenburger are proud to be the oldest known company in the development and production of playing cards in the whole of Europe. Our motto "A heart for card games - since 1765" reflects our long tradition and passion for high-quality card games. Rummy is THE classic family card game! The most popular card games in the world, from rummy to canasta to bridge, can be played with this set of playing cards! The cards in this set are particularly easy to read thanks to the larger card format and extra large corner markers. Instead of being wrapped in plastic film, the cards are wrapped in paper, the packaging and the cards are made from FSC®-certified material and are particularly environmentally friendly. ASS Altenburger is gradually reducing the use of plastic materials to a necessary minimum, optimising products and production with a focus on sustainability - that is our claim as a brand! The new cards come with a modern and timeless redesign of our brand. The design emphasises our long-standing company tradition and gives the Rummy French picture an elegant and high-quality look. The 2 x 55 sheets including 6 jokers in the practical slip lid box offer countless possibilities for an exciting evening of games. These high-quality cards are ideal for rummy players who prefer a larger card image and are looking for an environmentally friendly option. Order the ASS Altenburger FSC Rummy now and enjoy a high-quality and environmentally friendly rummy experience. With ASS Altenburger, you're not only choosing tradition and quality, but also sustainability and environmental protection.
