Product Description

Mechanical Puzzle: Mysterious butterflies have experienced a magical mechanical evolution! Mechanized bodies means to face more difficulties and challenges.- Items Included: PVC, ABS, Metal- Number of Pieces: 79- Difficulty Level: ??????- Assembly Time: About 1.5h- Age: 8+- Package Size: 276*195*57mm- Assembly Size: 155*145*230mmNature is full of mysterious beauty. ROKR will turn its attention to the light and beautiful butterflies, bringing you a new mechanical species- ROKR Mechanical Species Butterfly. The Mechanical Puzzle butterfly has two cool looks: MI05P and MI05B. One is a mysterious and elegant starry blue; the other is mostly rose pink, giving off a warm and gentle feeling. The butterfly's body is made tough with a material called ABS, and its soft, glittery wings are crafted from flexible PVC. They added fancy champagne-colored patterns using a special printing method, and there's even a sparkly gem on its back, shining in the sunlight. The butterfly lands on a rose twist with vines.Put the butterfly on its base, switch it on, and touch it to watch the wings flap. As the frequency changes, the rose and antennae light up a bit, like they're breathing and coming to life, sparkling in the sunlight.*Notes: Due to customs policy, the batteries (3 pieces of AAA/LR03/AM4 1.5V) may not be included in the package.
