Product Description

This wooden racing car puzzle model is powered by a clockwork energy storage system and a micro gearbox. The power is transmitted via gears, allowing it to travel up to 6-8 metres. Size: 290 x 105 x 76 mm Package size: 320 * 235 * 40 mm Wood content: 246 pieces Material: Plywood EAN: 6946785121742 Item number: LK505 Categories: Level B , Mechanical models , Novelties , Rokr ROKR Racing Car 3D Wooden Puzzle LK505 Get ready for a thrilling ride with the Racing Car, the latest 3D wooden puzzle from ROKR. Guaranteeing high-octane excitement and a fast track to fun, this Formula 1-inspired model is perfect for car enthusiasts or anyone simply looking for the thrill of a challenge. Its sleek, aerodynamic design and finely detailed wooden frame include a streamlined front wing, the familiar rear spoiler, a pointed nose, low ground clearance and a tight cockpit with a driver. The exposed mechanical gears and engine components add even more realism. They show the planetary gearbox, which ensures smooth cornering and differential wheel movement, especially when the robust silicone wheels hit obstacles. It also features a sound box that mimics the sound of a real Formula 1 engine. This car doesn't need batteries! Just turn the key and watch it speed away. Whether you park it on your desk or race it across your floors, the ROKR Racing Car will ignite your passion for engineering, design and conquering the finish line! *Note: Due to customs regulations, wax may not be included in the package. Wax: You can use ordinary candles, crayons, beeswax, etc.
